

Concrete Hopper

Concrete Hoppers - This particular attachment is a self-dumping hopper that automatically starts to unload when bumper release contacts the side of a dumpster. Once unloading is completed, the hopper goes back to a locked and upright position. This particular piece of equipment is even presented together with a cable which enables operation from the seat of the lift truck so as to have the alternative of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
