

Meritor Parts

Meritor Parts - The Meritor Business is a leading global dealer built upon one hundred years of tradition of quality and service. Meritor focuses on integrated systems along with various modules and components to the original machine makers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage within the worldwide operations. The company values all their clients and wishes to guarantee their success while anticipating their various requirements. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused individuals. These top-caliber people can rapidly adapt to changing surroundings and freely exhibit the level of performance and commitment considered necessary to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers their workers different chances for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise axles, drivelines, suspension and braking systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is dedicated to ensuring optimum development at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

They have their supplier network which is specially situated so as to support the development of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean techniques.
